

**Delivery of Personal Development**

**Personal Development Statement**

At Sutherland House School we aim to support all our students to gain the skills and experiences needed for them to lead confident, safe, healthy, and independent lives within the modern society. Our overall intent is for each pupil to engage, achieve and makes the most personal progress they can to enable them to live a fulfilled and as independent life as possible. At Sutherland House School this at the heart of everything we do, and we adopt an integrated approach to achieving this through a creative curriculum that provides many enriching learning opportunities and through the delivery of target individualised work. Each student at Sutherland House school has an individualised Education plan (IEP), which is embedded through personalised targeted sessions and wider school activities. Teachers work closely with onsite Speech and Language (SALT) and Occupational Therapist (OT) to maximise our learner’s potential towards outcomes but to also ensure all outcomes are meaningful and individualised for each student.

PHSCE is embedded within our curriculum and is delivered in group sessions and targeted 1:1 intervention may be delivered by our PHSCE teacher and/or trained staff. For some of our students, there are meaningful opportunities to apply these skills within the wider community. Our Careers lead works closely with all teachers across school to ensure there are opportunities to engage in experiences that develop skills to prepare our students for adulthood. We work closely with our students to build on their hopes and dreams and find pathways to support successful transition into adult life. These experiences vary dependent on each student and may be delivered through work experience opportunities, class-based projects or access to the wider community.

### Personal Development at Sutherland House School
