

# Statement Of Purpose

## **Our Vision and Mission**

Our vision is simple and straight to the point:

“A world which recognises, understands and values people with autism and where they, and their families, receive the services and support they need throughout their lives.”

Our Mission statement lies at the heart of what we are trying to achieve:

“To advocate, provide and develop high-quality services, information, and support, in partnership with others, for all those whose lives are affected by autism. To recognise and respond to the needs of the individual, enabling people with autism to live their lives with dignity, choice and independence.”
